CASE STUDY Power Water Corporation (NT)

PowerWater

Fast Facts:

- Preferred supplier of safety and emergency response training
- Trained over 300 learners across all fire, safety and emergency response training courses
- Enlisted for Emergency Response for Confined Space Entry

Fire & Safety Australia North has been working with Power Water Corporation for 2 years now as a preferred training provider on their panel contract list. During that time we've run Confined Space Entry, Confined Space Rescue, Work Safely at Heights, Fire Extinguisher, Fire Warden, White Card and First Aid training.

In addition Fire and Safety Australia North has entered into an agreement with Power Water Corporation for the provision of Standby Rescue Teams for Confined Space Entry requirements. Multiple tasking has occurred with regular shifts having been served both during normal work hours and out of hours.

- Conduct fire, safety, first aid, height safety and confined space safety training through our RTO
- Schedule emergency response exercises for Power Water personnel
- Have commenced Confined Space Rescue training for Power Water Corporation throughout the Northern Territory
