

CERT III IN MINE EMERGENCY RESPONSE AND RESCUE – RII30713

The Certificate III in Mine Emergency Response and Rescue offered by Fire and Safety Australia is designed for individuals who wish to participate as part of a mine rescue emergency response team in an underground or open cut metalliferous mine.

Upon successful completion of this course, participants will gain skills and knowledge in:

- Mines rescue techniques and procedures
- Preparing and using rescue equipment
- Responding to mine incidents and emergencies
- Conducting Basic Fire Fighting Operation
- Responding to Mines Emergency such as Vertical or Confined Space Rescue
- Conducting Road Crash Rescue
- Risk management
- Safe work practices
- Operating in open circuit breathing apparatus

DURATION: 4 MODULES OVER 16 DAYS

TOTAL - \$4,500

ENTRY REQUIREMENTS

- HLTAID003 - Provide first aid or equivalent*
- RIIWHS202D - Enter and work in confined spaces*
- Driver's manual license
- USI

***If you don't have these, you can sit them FREE of charge at an FSA Public Course prior to undertaking your Cert III. Deposit must be paid.**

Fire and Safety Australia encourages participants to gain knowledge and experience of the policies and procedures of their workplace before starting the course. It is also an expectation that participants have experience working in an mining or resources industry/ environment. It is acknowledged that this is a course based on a Certificate III level qualification that requires appropriate levels of language, literacy and numeracy skills to manage course work, in-course activities and assessment tasks.
