Hi and welcome to Fire & Safety Australia!

Welcome to Australia's leading provider of National Fire and Safety Training and Emergency Response Staffing solutions. Fire and Safety Australia now owns the National Safety Council of Australia (NSCA) brand to provide further National reach. With over 45 trainers covering every major capital city, the blend of the NSCA offering and the FSA training offering makes us your one stop shop for all your training needs. The combined FSA offering will incorporate 150 staff across every major capital city in Australia, further extending our capabilities to our National Clients.

Our teams are currently staffing Australia's two largest Gas Plants still under construction, keeping over 5000 people safe across the projects. Our current workload includes providing emergency response staff to Chevron and Inpex during construction and transition to Operating Gas Plants.

As specialists in 'tailored training', we currently tailor training courses for many large national clients including BHP, BMA Coal, Rio Tinto, XStrata, Cement Australia, Thiess, nbn Co, Bunnings, Inpex, Harvey Norman, Crown Casino, MCG and many many more. You can be assured that we can meet your national training requirements.

As an organisation with a commitment to improving safety at our clients work sites, we are always available to talk safety and provide you with advice on improving safety. As a company with a national presence we can truly provide your company with a 'one stop shop' for all of your Fire & Safety Training, Emergency Response Staffing, Equipment and Workplace Procedures. We are proud to be able to provide Workplace Health and Safety Training in every major capital city including your workplace Health and Safety Representatives course.

Our purpose is 'to forever change safety in the world, one experience at a time'. We believe in hands on 'memorable' practical fire, safety and rescue training. We recruit only the best people and we truly love what we do. We are experts in tailoring training to the requirements of our customers to ensure active learner engagement and 'hands on' practical training. Our team exists to help you keep your team safe, please talk to us about putting together a site specific tailored training program, or staffing solution to ensure that your team retains the fire and safety skills and knowledge required to keep safe at work.

Our Training Courses

We provide nationally recognised training in all States and Territories Australia wide. We have a dedicated full time trainers with well over 400+ years of Emergency Services and Safety experience. We will tailor our training courses to the requirements of your site and we will also ensure that all training includes a substantial amount of 'hands on' and practical training. After all, we learn best by doing rather than saying.

Emergency Response Personnel

Need Emergency Response Personnel? Whether your needs are for casual, short term or long term projects, speak to us today about sourcing your next ESO / ERO from Fire and Safety Australia. FSA is currently contracted to a number of construction and operational projects around Australia to provide a 24/7 professional Safety, Training, Emergency and Health & Wellbeing Service. We currently provide the Emergency Response teams on the Chevron project in Western Australia as well as the Inpex JKC Ichthys project in the Northern Territory. As a company with an international presence we can truly provide your company with a one stop shop for all of your Fire & Safety Training, Equipment, Emergency Response Personnel and Workplace Procedures.

WHY CHOOSE FSA?

Here are 5 reasons why you should choose Fire & Safety Australia for all of your safety training and safety consultancy requirements:

1. 100% MONEY BACK GUARANTEE:

If you're not completely satisfied with the quality and professionalism of our corporate training courses, we will send another trainer FREE OF CHARGE or REFUND YOUR MONEY IN FULL. No questions asked, no hidden conditions – We are the only Fire/Safety/Rescue Training Registered Training Organisation in Australia to offer this!

2. NATIONAL ACCREDITATION AND ISO9001-2015 QUALITY ACCREDITATION:

All of our training courses are nationally recognised through the Australian Qualifications Training Framework and are recognised in all States and Territories of Australia. We are a Registered Training Organisation (RTO:22250) that has government authority to deliver accredited training. We hold independently audited ISO9001-2015 Quality Management Certification.

3. OUR EXPERIENCE:

All of our trainers are former fire-fighters, emergency services workers or safety professionals. Our personnel have all 'been there and done that' and can relate their decades of experience to your classes in an enthusiastic and professional manner. In 2016 we trained over 39,000 people across every State and Territory in Australia and we are on target to train over 50,000 people in 2017!

4. WE ALWAYS PUT OUR CLIENTS FIRST AND WE GIVE OUR CLIENTS FLEXIBILITY FOR TRAINING OPTIONS:

Our team puts the interests and needs of our clients first in everything that we do. Often we fly our personnel around Australia to meet the needs of our clients at short notice. We will take the time to learn your organisation, your safety procedures and your equipment. We will tailor our training delivery directly to your requirements.

5. WE DELIVER WHAT WE SAY WE WILL:

We provide first class customer experiences every time. Our team will put your requirements first and deliver what we say we will. Our friendly administration team will take the hassle out of booking training and process all paperwork in a timely fashion. We deliver first class training, provide first class customer service and we are committed to putting your needs first every time you deal with us.
